

Premium Loaded Calipers

Convenient, Reliable and Easy to Install: Wagner® ThermoQuiet™ loaded calipers with premium Wagner ThermoQuiet one-piece disc brake pads offer convenient, reliable and easy installation for your brake job. *Convenient* because everything you need is in the box including a remanufactured caliper, new premium Wagner ThermoQuiet brake pads and new hardware components. *Reliable* because they are 100% full function tested and phosphate coated to prevent rust. And *easy to install* because they are bolt-on ready making brake repair or replacement easier for you.

Superior Stopping Power, Quiet Performance and Enhanced Durability: Wagner ThermoQuiet loaded calipers are loaded with premium Wagner ThermoQuiet disc brake pads with the patented IMI™ Sound Insulator™. This breakthrough technology is a one-piece design that spreads out and absorbs heat and energy over a greater surface area for longer brake life and quiet performance.

Fast Installation and Fewer Comebacks: Wagner ThermoQuiet loaded calipers are ready to install on both domestic and foreign applications. No time consuming disassembly or parts replacement is needed. Simply remove the old caliper, replace with new rotor, bleed the brakes and install the new caliper. Knowing that the components are tested for full functionality and properly installed leaves nothing to chance. Thus, comebacks are reduced and no comebacks mean greater customer satisfaction.

PREMIUM

CALIPERS:

- 100% INSPECTED AND TESTED
- MEET OE SPECIFICATIONS
- NEW HARDWARE / BLEEDER SCREW
- BOLT-ON READY
- PHOSPHATE COATED

FRICTION:

- PATENTED IMI™ TECHNOLOGY
- ASBESTOS-FREE
- SEMI-METALLIC
- NON-METALLIC

ENGINEERED FOR:

- DOMESTIC
- IMPORT
- PASSENGER CARS
- SUVs
- LIGHT TRUCKS
- MINI-VANS

* Patent No. 5,413,194

Premium Loaded Calipers

New or remanufactured metal or penolic pistons and new piston seals, matching OE specifications.

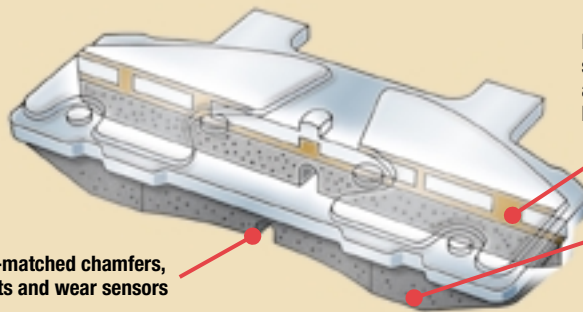

Wagner® ThermoQuiet™ premium one-piece brake pads provide quiet performance, superior stopping power and enhanced durability.

Caliper Features & Benefits:

- 100% inspected, 100% tested, 100% assembled for fast, trouble-free installation
- All new hardware and bleeder screw to meet OE specifications and provide lasting durability
- Mounting brackets included with applicable units.
- Phosphate coated to resist rust and corrosion

Brake Pad Features & Benefits:

- IMI™ Sound Insulator™ technology plus OE-matched chamfers, slots and wear sensors for smooth, quiet braking
- One-piece design eliminates separate shims, dissipates heat and vibration for cooler, quiet braking
- 100% asbestos-free friction formulations in both semi-metallic and non-metallic provide the right brake performance for domestic and import passenger cars, SUVs, light trucks, mini-vans
- Powder coated finish for premium, corrosion-resistant appearance and longer life

IMI™ Sound Insulator™ one-piece design spreads out and absorbs heat and energy over a greater surface area for longer brake pad life and quiet performance*

Superior friction formulations engineered to pass O.E. manufacturer-developed stopping test

*on specific applications
